Qualifications

Have your voice heard! We are looking for California educators, who teach students with significant cognitive disabilities, to participate in the development of the California Alternate Assessment (CAA) for Science. The initial developmental years of this assessment offer many opportunities for educators to have vital input in their creation and implementation.

All California educators who teach students with significant cognitive disabilities are encouraged to apply.

Some upcoming events in need of educators are:

- CAA for Science Achievement Level Descriptor meeting, March 25–26, 2020. At this meeting, participants will review and provide feedback to propose achievement level descriptors for each grade span. These descriptors will be used during the standard setting meeting.

- CAA for Science Standard Setting meeting, August 4–6, 2020. At these grade level meetings, participants will be guided through the process to set threshold scores for each score band.

Specific opportunities for CAA can be found at: http://bit.ly/CAASPPGetInvolved

Opportunities for the ELPAC and Alternate ELPAC can be found at: http://bit.ly/ELPACGetInvolved

Application Instructions

Applicants are asked to create an account in the Educator Opportunities Portal. The links for new account requests and for access to the portal directly are available at the web pages above. Once you have access the Educator Opportunities Portal, you will find specific instructions regarding how to apply for an opportunity.
