

SINGLE SIGN-ON FEATURE

This new single sign-on feature allows educators to access all online assessment systems with a single username and password. The graphic below illustrates the process and the systems under the single sign-on umbrella.

The Smarter Balanced Administration and Registration Tools (ART) system will no longer be available. All features of the ART system will roll into the Test Operations Management System (TOMS).

All users who receive a TOMS role will now automatically receive access to the Digital Library; however, the Digital Library self-registration feature will still be available to users who do not have a Digital Library account.

- Test Operations Management System (TOMS)
- Test Administrator (TA) Interface
- Completion Status and Roster Management
- Online Reporting System (ORS)
- Data Entry Interface (DEI)
- Interim Assessment Viewing System
- Interim Assessment Hand Scoring System
- California Educator Reporting System (CERS)
- Digital Library
- Practice & Training Tests
