Dear Parent/Guardian of Sophia Jackson:

This report shows Sophia's scores on the California Assessment of Student Performance and Progress (CAASPP) for English language arts/literacy and mathematics. These tests are based on California's goal of preparing students for college and career.

Sophia's scores are just one measure of progress at school. These results should be considered along with other information—such as classroom tests, assignments, and grades.

Students achieve more when their parents are involved in their learning. Please use the resources outlined below to find out more about how you can help Sophia continue to make progress and prepare for a bright future.

Sincerely,

Tom Torlakson,
State Superintendent of Public Instruction

Statewide Assessments: One Measure of Sophia's Progress

CAASPP results give us one measure of how well students are mastering California's challenging academic standards. The skills called for by these standards—the ability to write clearly, think critically, and solve problems—are critical for preparing students for college and a 21st-century career.

What do my child's scores mean?

There are four levels of scores for ELA and mathematics for 4th grade. Achievement levels "Standard Met" and "Standard Exceeded" are the state targets for all students.

Grade 4	Standard Not Met Level 1	Standard Nearly Met Level 2	Standard Met Level 3	Standard Exceeded Level 4
ENGLISH LANGUAGE ARTS/LITERACY (ELA)	2131-2415	2416-2472	2473-2532	2533-2663
MATHEMATICS	2204-2410	2411-2484	2485-2548	2549-2659

Score ranges for each achievement level are different for each grade, and the standards for the next grade are higher than for the previous grade. As a result, students may need a higher score to stay in the same achievement level as the previous year.

California Science Test (CAST) for Grade 5

This year, students in grade five took part in a field test of the new California Science Test (CAST). When complete, this new test will measure students' understanding of the new California Next Generation Science Standards (CA NGSS), which encompass the core ideas, concepts, and practices in science and engineering that students should master to be ready for college and a 21st-century career.

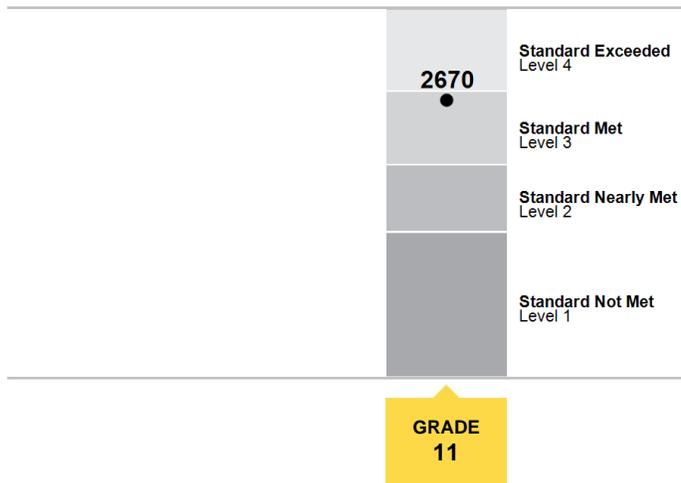

Much like California's standards in mathematics and English language arts/literacy, these new standards will give students an up-to-date science education and equip them with the ability to think critically, analyze information, and solve complex problems. The field test is meant to evaluate test questions, as well as help students and schools become familiar with the new standards and content.
