## Interim Assessment Viewing System

The Interim Assessment Viewing System contains all of the Smarter Balanced Interim Assessments. It is designed to allow teachers to see the interim assessments and understand the types of questions on the Interim Assessment Blocks (IABs) and the Interim Comprehensive Assessments (ICAs) and the scope of the content on an interim assessment. It allows teachers to better gauge when to administer a specific interim assessment. This tool is only available to users who have the Test Operations Management System (TOMS) credentials that allow administration of an interim assessment.

The Interim Assessment Viewing System provides read-only access to all interim assessments. Users must select answers and input text to items to progress through the assessment. To access the system, go to the California Assessment of Student Performance and Progress (CAASPP) Portal (<http://www.caaspp.org/>). Select the [Smarter Balanced Interim Assessments] button (Figure 2).

The *Sound and Video Playback Check* screen allows users to verify the functionality of any audio and video features that the test may include. Unmute device speakers to hear the sound, if necessary. Select the [Play] icon (  ) (Figure 7).

## Sound and Video Playback Check

Make sure video and audio playback are working. To play the sample video and sound, press the play button.

**Next Step:**  
If you were able to play the video and its sound, choose **I could play the video and sound**. If not, choose **I could not play the video or sound**.

Select [**I could play the video and sound**] to move to the first page of the test. It is not necessary for audio to be present for educators to view the test.

The Interim Assessment Viewing System is available to all educators with roles that allow access to interim assessments. The Interim Assessment Viewing System can be used for professional development and training purposes. It is intended to allow educators to understand the types of questions on the IABs and ICAs, as well as to work with students to familiarize them with test format and content. In addition, the viewing system may help inform decisions about the selection and assignment of accessibility resources for students.
