# Chapter 4. Administration Preparation and Planning

---

## Technology Infrastructure

### Resources in This Section:

- [Appendix D: Secure Browser for Testing](#)
- Secure Browsers website—<http://ca.browsers.airast.org/>
- *Technical Specifications and Configuration Guide for California Assessment of Student Performance and Progress (CAASPP) Online Testing* web document—<http://www.caaspp.org/rsc/pdfs/CAASPP.tech-specs-and-config-guide.2018-19.pdf>

Prior to assessment administration, local educational agency (LEA) CAASPP coordinators, CAASPP test site coordinators, technology coordinators, test administrators, and test examiners should review the technology infrastructure at their schools to ensure it meets the minimum requirements for administering the Smarter Balanced assessments.

### The Secure Browser

All students must use a secure browser to access operational assessments. Most devices that will be used for testing must be equipped with version 10.3 of the secure browser prior to the assessment. Many devices can use the CAASPP secure browser to secure the device. ***All devices that will be used for testing must have the correct secure browser installed prior to assessment.***

The secure browser is designed to support test security by prohibiting access to external applications or navigation away from the assessment.

**Note:** For the 2018–19 CAASPP administration, the updated version of the secure browser, version 10.3, *must* be downloaded and installed in order for students to test in 2018–19.

School technology coordinators are responsible for ensuring that each device to be used for testing at the school is properly secured by installing the most current secure browser. Secure browsers are available for download on the [Secure Browsers](#) website.

---

## Student Data

### Resources in This Section:

- California Department of Education (CDE) California Longitudinal Pupil Achievement Data System (CALPADS) web page—  
<https://www.cde.ca.gov/ds/sp/cl/>

CALPADS is the authoritative source for student enrollment, demographic, and program information for the Test Operations Management System (TOMS). The student-level data from CALPADS will be used for the Smarter Balanced assessments (summative and interim), California Alternate Assessments (CAAs), California Science Test (CAST), as well as the paper-pencil primary language assessment. The use of CALPADS data for these assessments underscores the importance of keeping CALPADS up to date and accurate.

The minimum data that needs to be correct in CALPADS for a student to start testing is as follows:

- Name
- Grade
- School and local educational agency information
- CALPADS enrollment status of 10 (primary) or 30 (short-term)
- U.S. school entry data (if the student is an English learner)
- Parent/Guardian address to be printed on Student Score Reports
- Fields 3.13 (education program) and 3.21 (primary disability) (if the student is to take the California Alternate Assessment or receive designated supports, accommodations, unlisted resources, or any combination of these)
- All other demographic fields (if the LEA wants to view these fields in the final student data file that is downloadable from TOMS)

CALPADS documentation, including field names and field codes, and information about CALPADS support are available on the CDE [CALPADS](#) web page.

## General Test Administration Information

### Resources in This Section:

School personnel should follow the California policies and regulations regarding student participation. More information can be found at the following locations:

- California Department of Education (CDE) California Assessment of Student Performance and Progress (CAASPP) Description – CalEdFacts web page—<https://www.cde.ca.gov/ta/tg/ai/cefcaaspp.asp>
- *California Code of Regulations* CAASPP Regulations web document—<http://www.cde.ca.gov/ta/tg/ca/documents/caasppresubregs.docx>

California *Education Code*, California Assessment of Academic Achievement web pages:

- Article 1 General Provisions web page—[http://leginfo.legislature.ca.gov/faces/codes\\_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=1](http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=1)
- Article 2 Program Provisions web page—[http://leginfo.legislature.ca.gov/faces/codes\\_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=2](http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=2)
- Article 4 California Assessment of Student Performance and Progress web page—[http://leginfo.legislature.ca.gov/faces/codes\\_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=4](http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=EDC&division=4.&title=2.&part=33.&chapter=5.&article=4)

This section provides an overview of the online testing environment and guidelines for test administration. Use this section to become familiar with what students will experience in accessing the assessments, how to prepare for the assessments, and to review general rules for online testing. Information about the practice and training tests, test pauses, and test resumptions is also included in this section. Test administrators and test examiners should become familiar with this section well in advance of the start of testing so materials for logon, accommodations, and exemptions described below can be assembled.

## General Rules of Online Testing for Test Administrators and Test Examiners

This subsection provides a brief overview of the general test administration rules for different portions of the assessment as well as information about student accessibility resources.

### *Basic Online Testing Parameters*

#### Resource in This Subsection:

- [Appendix B: Online Item Types](#)

#### Online Tests:

- Students may not return to a test once it has been completed and submitted unless an Appeal to re-open the test has been approved. (Note that an Appeal cannot be requested unless the local educational agency (LEA) CAASPP coordinator or CAASPP test site coordinator has submitted the incident using the Security and Test Administration Incident Reporting System/Appeals process in the Test Operations Management System (TOMS); TOMS makes the determination whether to file an Appeal immediately, defer until an Appeal has been approved by the CDE, or that an Appeal is not necessary.)
- Within certain tests, there may be segments. A student may not return to a segment once it has been completed and submitted; during a grace period extension, the student may only return to prior pages (i.e., screens) within the existing segment. A grace period extension will only be granted in cases where there was a disruption to a test session, such as a technical difficulty, fire drill, schoolwide power outage, earthquake, or other act beyond the control of the test administrator.
- For Smarter Balanced assessments, the California Science Test (CAST), and the California Spanish Assessment (CSA), students must enter an answer for all item(s) on a page before going to the next page. Students may need to use the vertical scroll bar to view all items on a page. The system will permit students taking a California Alternate Assessment (CAA) to navigate through unanswered items.
- Students may mark items for review and use the *Past/Marked Questions* drop-down list to return to those items that have already been answered within a segment. **If this option is selected, students need to make sure they review their past or marked questions before they sign out of the test session, because once a test session is closed, questions from the session, including computer adaptive test (CAT) writing items with partial responses, can no longer be accessed in subsequent sessions.** (*This functionality does not apply to the CAAs.*)

- A constructed response item is considered answered if the student has taken any action within the response area. This includes random keystrokes (e.g., sdkjfdlkjfo), one or more spaces using the spacebar, selecting anywhere on a Grid Item – Hot Spot Item, etc.

The mark-items-for-review feature does not influence the adaptive nature of the CAT portion of the test—the response a student provides for each CAT item is used in the adaptive algorithm regardless of whether the student has marked the item for review. Students should be directed to provide their best answer to each item regardless of whether they want to mark the item for review later.

### **Smarter Balanced, CAA for Science, and CAST:**

- In the **Smarter Balanced** assessments, CAT items and performance tasks (PTs) are presented as separate tests.
- The **CAST** is a single test that includes items ranging from traditional multiple-choice and constructed response to new technology-enhanced items, including PTs. A student survey consisting of three to four questions directly follows within the same testing session.
- The **CAA for Science** responses are entered into the test delivery system.

### **CAAs for English language arts/literacy (ELA) and Mathematics:**

The **CAAs for ELA and mathematics** use a multistaged test design that assigns item sets of varying complexity, based on how well students perform on the initial set of items. Some students may be presented with fewer items than others, depending on how students perform on the items they receive. The goal of the CAA design is to provide students the best opportunity to demonstrate what they know and can do while minimizing exposure to items with an inappropriate level of complexity.

Note that some students will automatically end testing after Stage 1. However, most students will complete Stage 1 and proceed to one of two Stage 2 sections. When testing is completed, the test examiner submits the test.

Tier 1 items are considered the most accessible and contain more images, and Tier 3 items provides more answer choices, more complicated text, and the fewest images.

### **Pause Rules**

During the **CAT** portion of the Smarter Balanced and during the CAST discrete item blocks:

- If a test is paused for more than 20 minutes, the student
  - is required to log back on to the student interface using his or her logon information (name, Statewide Student Identifier, and test session);

- is presented with the page containing the item(s) he or she was working on when the assessment was paused (if the page contains at least one item to which there is not a complete response) *OR* with the next page (if all items on the previous page were answered); and
- **will not** be permitted to review or change any previously answered items, even if they are marked for review (with the exception of items on a page that contains at least one item to which there is not a complete response) (refer to [appendix E](#), scenario 2, item c for additional information).
- Any highlighted text will be saved when a test is paused regardless of how long the test is paused. Notes entered on the digital notepad will not be saved.
- In the event of a technical issue (e.g., power outage or network failure), students will be logged off and the test will automatically be paused. The students will need to log on again upon resuming the test. Highlighted text will be available when the student has logged back on and resumed testing; notes entered on the digital notepad—the tool used to make notes about an item—will no longer be available.
- Refer to [Appendix E: CAT Pause Rules Scenarios](#) to review the rules that govern pausing during the test.

During the **PT** portion of the Smarter Balanced and CAST assessments:

- **There are no pause restrictions.** If a PT is paused for more than 20 minutes, the student can return to the section and continue entering his or her responses.
- For the mathematics PT, any highlighted text and notes on the digital notepad will not be saved when a test is paused regardless of how long the assessment is paused.
- For the ELA PT, the Global Notes are retained for both parts 1 and 2.
- Any highlighted text and notes within the Global Notes will be saved when a test is paused regardless of how long the assessment is paused.
- In the event of a technical issue (e.g., power outage or network failure), comments entered on the Global Notes—the tool used during ELA PTs in which students complete a full write, as well as for any other test items within the PT—will be available when the student has logged back on and resumed.

Please note that there are recommendations for breaks in Table 8. Assessment Sequence—ELA and Table 9. Assessment Sequence—Mathematics. Although the CAST is a single test that is estimated to take two hours, there are break recommendations, because each PT should be completed in a single session.

For the **CAAs for ELA, mathematics, and science**, the pause rules that follow apply regardless of whether the student or the test examiner pauses the test or there was a technical issue (e.g., power outage or network failure) that resulted in the student being logged off.

- The CAAs for ELA and mathematics can be paused and resumed as many times as necessary to allow the student to show what he or she knows. The student also may choose to pause and resume over the course of a day or days throughout the testing window.
- The test examiner can make the decision to pause and resume the test administration if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test.
- When a test is paused, the test examiner, on behalf of the student, must log back on to resume testing. Upon resumption, the student is directed automatically to the first page that has an unanswered item. Previously answered items can be revisited within the current test segment, but not in prior segments.

## ***Stopping a Test***

**Only the CAAs may be stopped before the test is complete.**

Students typically take approximately 95 cumulative minutes or less to successfully complete a single content area of a CAA. Test examiners may end a test if the student's productivity and engagement have significantly declined, even after allowing the student breaks over multiple days.

In all cases, students should be given as many breaks as needed to perform well, including testing over multiple days.

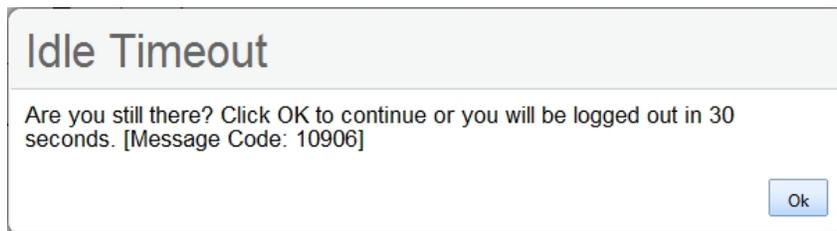

If the test examiner determines it is in the best interest of the student to end the test early, the test examiner will need to advance through the remaining test items until he or she reaches the end and then submits the test.

## ***Test Timeout (Due to Inactivity)***

As a security measure, students, test administrators, and test examiners are automatically logged off the test after 30 minutes of inactivity. For students, *activity* is defined as selecting an answer or navigation option in the assessment (e.g., selecting **[Next]** or **[Back]** or using the *Past/Marked Questions* drop-down list to navigate to another item). Moving the mouse or selecting an empty space on the screen is not considered activity. This timeout also results in the test being paused automatically.

For test administrators and test examiners, *activity* means that a student or students are registering test activity. As long as students are testing, the test administrator or test examiner will not be logged off.

**Before the system logs the student off the assessment, a warning message will be displayed on the screen (Figure 1). If the student does not select [Ok] within 30 seconds after this message appears, he or she will be logged off. Selecting [Ok] will restart the 30 minute inactivity timer.**

**Figure 1. Test timeout warning message**

**Caution:** As a security measure, test administrators and test examiners are automatically logged off the Test Administrator Interface after 30 minutes of user inactivity in the session, regardless of whether or not the test administrator is actively monitoring the test session away from his or her device. The inactivity will result in the closing of the test session.

### ***Test Expiration Rules***

Opportunities refer to the number of times a student can take a test within a range of dates. A student's test opportunity remains active until the student submits the test or until the opportunity expires. Once a test opportunity expires, the student cannot complete or review the test. **Students have one opportunity per CAASPP online assessment.** Only interim assessments offer students multiple opportunities.

### **Smarter Balanced Computer Adaptive Test (CAT)**

A student's CAT remains active until the student completes and submits the test or **45 calendar days** after the student has begun the test (but before the end of the selected testing window), whichever occurs sooner. However, it is recommended that students complete the CAT items portion of the test within **five days** of starting the designated content area.

### **CAST and CAAs**

The CAST assessment and the CAAs for ELA and mathematics remain active until the student completes and submits the test or **45 calendar days** after the student has begun the test (but before the end of the selected testing window), whichever occurs sooner. However, it is recommended that that students complete these assessments within **five days** of starting the designated content area. Note that each of the three embedded PTs in the CAA for Science are treated as separate tests. All three must be completed and submitted no later than the last day of the LEA's instructional calendar or July 15, 2019, whichever comes first.

### **CSA**

The CSA remains active until the student completes and submits the test no later than July 15, 2019.

### Smarter Balanced Performance Task (PT)

The PT is a separate test that remains active for no more than **10 calendar days** after the student has begun the PT (with the approval of the CDE). However, Smarter Balanced recommends that students complete the PT within **three days** of starting in each content area. **The ELA PT will submit automatically if the 10-day window expires and the system has registered any response to the PT.** A summary of recommendations for the number of sessions and session durations is provided in the subsection [Testing Time and Recommended Order of Administration](#).

**Note:** If a student starts a Smarter Balanced, CAA for ELA or mathematics, or CAST assessment near the end of the selected testing window, the student must finish before the test administration window officially closes. The assessment will automatically end on the last day of the selected testing window, the last day of instruction, or July 15, 2019, even if the student has not finished.

## Testing Time and Recommended Order of Administration

All students participating in the Smarter Balanced assessments will receive a CAT and a PT in both ELA and mathematics. Students in grades five, eight, and eleven (if that student has been assigned) will also receive the CAST. Otherwise, students in grade twelve who are required to take the CAST will take only the CAST, as will those students in grade ten who are assigned to take the CAST.

Eligible students taking the online CAAs will receive both ELA and mathematics assessments. Students in grades five, eight, and eleven (if the high school has been assigned that grade or that is the grade calculated for students in ungraded programs) will also receive the CAA for Science. Otherwise, eligible students in grade twelve who are required to take the CAA for Science will take only the CAA for Science, as will those students in grade ten who are assigned to take the CAA for Science.

### Testing Time And Scheduling

#### Resources in This Subsection:

- *California Code of Regulations CAASPP Regulations* web document—  
<http://www.cde.ca.gov/ta/tg/ca/documents/caasppresubregs.docx>
- *Chapter 3: Test Administration Setup* web document—  
<http://www.caaspp.org/rsc/pdfs/CAASPP.TOMS-pre-admin-guide.2018-19.Chapter-3.pdf>
- *TOMS Pre-Administration Guide for CAASPP Testing* web document—  
<http://www.caaspp.org/rsc/pdfs/CAASPP.TOMS-pre-admin-guide.2018-19.pdf>

### Testing Windows:

LEA CAASPP coordinators set up test dates in the TOMS Test Administration Setup module. Testing windows can be viewed in TOMS by LEA CAASPP coordinators by following the instructions to “View the Details of the Windows Summary” in [Chapter 3: Test Administration Setup](#) of the [TOMS Pre-Administration Guide for CAASPP Testing](#). All CAASPP testing must take place within this window, including any make-up testing.

### Scheduling Time for Testing:

**Estimated testing times do not account for any time needed to start devices, load secure browsers, and log students on; nor do they account for breaks. Test administrators and test examiners should work with CAASPP test site coordinators to determine precise testing schedules.**

#### Smarter Balanced Summative Assessments for ELA and Mathematics

Table 7 contains rough estimates of the time it will take most students to complete the Smarter Balanced assessments based on the time it took students to complete the Smarter Balanced Summative Assessments in prior years. **This information is for scheduling purposes only, as the assessments are not timed.**

**Table 7. Estimated Testing Times for Smarter Balanced Online Assessments**

Grade-Level Assessment	CAT items in hrs:mins	PT in hrs:mins	Total in hrs:mins
ELA 3–5	1:30	2:00	3:30
ELA 6–8	1:30	2:00	3:30
ELA 11	2:00	2:00	4:00
Mathematics 3–5	1:30	1:00	2:30
Mathematics 6–8	2:00	1:00	3:00
Mathematics 11	2:00	1:30	3:30
ELA and mathematics 3–5	3:00	3:00	6:00
ELA and Mathematics 6–8	3:30	3:00	6:30
ELA and Mathematics 11	4:00	3:30	7:30

When developing a testing schedule, use the estimated testing times to calculate the number of days and the amount of time it will take to complete an assessment in each content area and grade level. Also consider that Smarter Balanced recommends that students take the CAT and PT items on separate days to minimize the effect of student fatigue.

#### California Alternate Assessments for ELA, Mathematics, and Science

For the online CAAs for ELA and mathematics, testing should take approximately 60 to 100 minutes for each content area, although the assessments are untimed, and the amount of time each student needs can vary. Tests may be administered to a student over as many testing sessions and days as required to meet the needs of that student.

For the CAA for Science, which is administered one on one during regular classroom instruction, testing should take approximately 60 minutes per embedded PT, although the assessments are untimed, and the amount of time each student needs can vary. Tests may be administered to a student over as many testing sessions and days as required to meet the needs of that student.

### **California Science Test**

Administration of the CAST assessment is estimated to take approximately two hours. Note that the CAST is an untimed test. The CAST is composed of five blocks of test questions: two or three blocks of discrete (stand-alone) questions followed by three or two PTs where each PT is a block. It is strongly recommended that a PT be started and completed in a single test session, with a break after either the second or third block of test questions.

### **California Spanish Assessment**

Administration of the CSA is estimated to take approximately two hours. Note that the CSA is an untimed test and students should be given as much time as they need to complete this assessment.

### ***Recommended Order of Online Administration of the Smarter Balanced Summative Assessments***

The summative assessments are comprised of two components (tests) for ELA and mathematics: a CAT and a PT.

Smarter Balanced recommends that students take the CAT and PT items on separate days to minimize the effect of student fatigue. For each content area, Smarter Balanced also recommends that students begin with the CAT items followed by the PT. LEAs or schools may opt to administer in a different order if needed.

### **Recommended Order of Test Administration**

### ***Duration and Timing Information***

The scheduling recommendations for ELA, mathematics, and science assessments are included in Table 8 through Table 10. Note that the duration, timing, break and pause rules, and session recommendations vary for each content area and component.

## English Language Arts/Literacy

**Table 8. Assessment Sequence—ELA**

ELA	CAT Items	PT	CAA
<p><b>Number and Duration of Sessions</b></p>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>Two sessions (recommended) and no more than six sessions (rare or extreme).</li> <li>Session durations range from 40–60 minutes.</li> </ul>	<p>The PT is presented in two parts.</p> <p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administer in two sessions corresponding to Parts 1 and 2 of the PT.</li> <li>Session durations range from 60–120 minutes. Part 2 should be scheduled to allow students enough time to complete the full write in one test session.</li> </ul>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>As many testing sessions and days required to meet the needs of the student.</li> <li>The test examiner can make the decision to pause and resume the test administration if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test.</li> </ul>
<p><b>Breaks within Sessions</b></p>	<p>Breaks can be provided during the test sessions using the software’s pause feature. If the test is paused for more than 20 minutes, the student will not be able to go back to items on the previous pages (i.e., screens).</p> <ul style="list-style-type: none"> <li>Recommendation: A single test session should not include a break longer than 20 minutes. Instead, separate test sessions should be scheduled around extended breaks (e.g., lunch).</li> </ul>	<p>The PT is presented in two parts. Students may take breaks within Parts 1 and 2; however, once a student moves to Part 2, he or she will not be able to review or revise items in Part 1.</p> <ul style="list-style-type: none"> <li>Recommendation: Students complete Part 1 in one test session and Part 2 the next school day in a single test session.</li> </ul>	<p>Breaks can be provided during the test sessions according to individual student needs.</p>

ELA	CAT Items	PT	CAA
<p><b>Total Duration</b></p>	<p>Once a student has started the CAT items, this test will be available for <b>45 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are 15 days left in the selected testing window and 20 days before the CAT expires, the test will become unavailable after 15 days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes this portion within five days of starting.</li> </ul>	<p>Once a student has started the PT, it will be available for <b>10 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are four days left in the selected testing window and nine days before the PT expires, the test will become unavailable after four days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes each part of the PT within one day.</li> </ul>	<p>Once a student has started a CAA, this test will be available for <b>45 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are 15 days left in the selected testing window and 20 days before the CAA expires, the test will become unavailable after 15 days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes this portion within five days of starting.</li> </ul>

### Important Reminders for ELA:

1. For the Smarter Balanced PTs, students may be best served by sequential, uninterrupted time that may exceed the time in a student's schedule.
2. Minimize the amount of time between beginning and completing each test within a content area.
3. The number of items will vary on the CAT portion of each student's Smarter Balanced assessment.
4. The tests are not timed, so all time estimates are approximate.
5. Students should be allowed extra time if they need it, but test administrators and test examiners need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions.
6. ELA assessments can be spread out over multiple days as needed.

## Mathematics

**Table 9. Assessment Sequence—Mathematics**

Mathematics	CAT Items	PT	CAA
<b>Number and Duration of Sessions</b>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administer in two sessions.</li> <li>Session durations range from 40–60 minutes.</li> </ul> <p>Most students will complete the CAT items in two sessions of 60 minutes or less or one long session of more than 60 minutes.</p>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administered in one session.</li> <li>Session duration ranges from 40–120 minutes.</li> </ul>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>As many testing sessions and days required to meet the needs of the student.</li> <li>The test examiner can make the decision to pause and resume the test administration if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test.</li> </ul>
<b>Breaks within Sessions</b>	<p>Breaks can be provided during the test sessions using the software’s pause feature. If the test is paused for more than 20 minutes, the student will not be able to go back to items on the previous pages (i.e., screens).</p> <ul style="list-style-type: none"> <li>Recommendation: A single test session should not include a break longer than 20 minutes. Instead, separate test sessions should be scheduled around extended breaks (e.g. lunch).</li> </ul>	<p>Students may take breaks during PT test sessions. Mathematics PT items are presented on a single page (i.e., screen). Following a break, the student will have access to the same items.</p>	<p>Breaks can be provided during the test sessions according to individual student needs.</p>

Mathematics	CAT Items	PT	CAA
<b>Total Duration</b>	<p>Once a student has started the CAT items, they will be available for <b>45 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are 15 days left in the selected testing window and 20 days before the CAT expires, the test will become unavailable after 15 days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes this portion within five days of starting it.</li> </ul>	<p>Once a student has started the PT, it will be available for <b>10 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are four days left in the selected testing window and nine days before the PT expires, the test will become unavailable after four days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes the PT in one day.</li> </ul>	<p>Once a student has started a CAA, this test will be available for <b>45 calendar days</b> or as many days remain within the LEA's selected testing window, whichever length of time is shorter (e.g., if there are 15 days left in the selected testing window and 20 days before the CAA expires, the test will become unavailable after 15 days).</p> <ul style="list-style-type: none"> <li>• Recommendation: Student completes this portion within five days of starting.</li> </ul>

### Additional Administration Recommendations for Mathematics:

1. For the Smarter Balanced PTs, students may be best served by sequential, uninterrupted time that may exceed the time in a student's schedule.
2. Minimize the amount of time between beginning and completing each test within a content area.
3. The number of items will vary on the CAT and PT portions of each student's Smarter Balanced assessment.
4. The tests are not timed, so all time estimates are approximate.
5. Students should be allowed extra time if they need it, but test administrators and test examiners need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions.
6. Mathematics assessments can be spread out over multiple days as needed.

**Science**

**Table 10. Assessment Sequence—Science**

<b>Science</b>	<b>CAST</b>	<b>CAA for Science</b>
<b>Number and Duration of Sessions</b>	<p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administered in as many sessions as needed.</li> <li>Session duration should take approximately 120 minutes.</li> <li>A post-testing survey should take an additional five minutes.</li> </ul>	<p>Recommendations for each embedded PT:</p> <ul style="list-style-type: none"> <li>As many testing sessions and days required to meet the needs of the student.</li> <li>The test examiner can make the decision to pause and resume the test administration if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test.</li> </ul>
<b>Breaks within Sessions</b>	<p>Breaks can be provided during the test sessions using the software’s pause feature. If the test is paused for more than 20 minutes, the student will not be able to go back to items on the previous pages (i.e., screens).</p> <p>If a break is needed, it is recommended that the break occur after either the second or third block of test questions.</p>	<p>Breaks can be provided during the test sessions according to individual student needs.</p>
<b>Total Duration</b>	<p>Once a student has started the CAST, this test will be available for <b>45 calendar days</b> or as many days remain within the LEA’s selected testing window, whichever length of time is shorter (e.g., if there are 15 days left in the selected testing window and 20 days before the CAST expires, the test will become unavailable after 15 days).</p> <ul style="list-style-type: none"> <li>Recommendation: Student completes this portion within five days of starting.</li> </ul>	<p>Once a student has started a CAA for Science embedded PT, the particular embedded PT will be available for <b>45 calendar days</b> or July 15, whichever comes first.</p> <ul style="list-style-type: none"> <li>Recommendation: Student completes this portion within five days of starting.</li> </ul>

### **Additional Administration Recommendations for Science:**

1. For the CAST, students may be best served by sequential, uninterrupted time that may exceed the time in a student's schedule.
2. Minimize the amount of time between beginning and completing the test.
3. The tests are not timed, so all time estimates are approximate.
4. Students should be allowed extra time if they need it, but test administrators and test examiners need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions.
5. Tests can be spread out over multiple days as needed.

## **Sensitive Responses**

### ***Taking Appropriate Action with Student Responses or Student Actions That Cause Concern***

Throughout the test administration process, student safety is always the primary consideration.

During testing, test administrators or test examiners may encounter student actions that disrupt the assessment administration and may endanger the student or others. In addition, it is possible that test administrators or test examiners will encounter student responses to questions or notes on scratch paper that necessitate some action to ensure student safety.

For test administrators, CAASPP security protocols make it clear that test administrators are not permitted to review student responses in the testing interface or students' notes on scratch paper. However, during or after CAASPP assessments, a test administrator might unexpectedly encounter a student response that raises sufficient concern to warrant adult action, including action as a mandated reporter. Topics that may require the test administrator to take action include, but are not limited to, student references to:

1. Suicide
2. Criminal activity
3. Alcohol or drug use
4. Extreme depression
5. Extreme violence or threats of violence
6. Sexual assault or physical abuse
7. Self-harm or intent to harm others
8. Neglect
9. Bullying

Note that, for a CAA test examiner, such a discovery may come during the course of one on one administration.

## Collecting information

Prior to administration, each test administrator and test examiner should have a thorough understanding of policies for the school, LEA, California, or any combination of these regarding documentation of student actions or concerning responses during a secure test event. The test administrator or test examiner should document as much information as possible in accordance with policies for the school, LEA, CDE, or any combination of these.

## Escalating information

Should the test administrator or test examiner encounter a sensitive situation while supervising the test session, the test administrator or test examiner should immediately escalate this concern in accordance with policies and procedures for the school, LEA, CDE, or any combination of these.

## Early Assessment Program (EAP)

The Early Assessment Program (EAP) is a joint program of the CDE, The California State University (CSU), and participating California Community Colleges (CCC). The EAP provides students with an early indicator of their readiness for college-level coursework in written communication and mathematics/quantitative reasoning prior to starting their senior year. The results are used to determine a student's placement in appropriate coursework once the student has been admitted to the CSU. The release of CAASPP results will not affect a student's application for admission.

All students participate in EAP by virtue of completing the Smarter Balanced Summative Assessments for ELA and mathematics. A student will be asked if he or she wishes to release his or her results to the CSU and CCCs. To authorize the release of their results, students should select the circle that indicates their understanding that their CAASPP/EAP results will be shared directly with the CSU, CCC, or both. This question is asked at the end of each test.

The release of ELA and mathematics results must be authorized individually (e.g., authorization for the ELA results does not automatically confer authorization for the mathematics results). Students may voluntarily share results of one or both assessments. Students who choose not to release their results to the CSU and CCC will need to provide their results to a CSU or CCC upon request.

# Universal Tools, Designated Supports, and Accommodations

## What's New in 2018–19

### ***General or All***

- Streamline has been reassigned as an embedded designated support.
- “Medical device” is a new non-embedded designated support for all assessments.
- The button used to clear unlisted resources in the Test Operations Management System (TOMS) is now called [**MAKE INACTIVE**].

### ***Smarter Balanced***

- Burmese is now among the embedded translation glossaries available as a designated support for the mathematics assessment.

### ***California Science Test (CAST)***

- The braille version of the CAST will be available on April 1, 2019.
- Hmong is available as a translation glossary.

### ***Operational California Spanish Assessment (CSA)***

- Unlisted resources are available starting with the operational CSA.
- The following accessibility resources will be available in Spanish:
  - Audio transcript
  - Closed-captioning
  - Braille

## Accessibility Guidelines

There are a number of sources of information available to assist in understanding, assigning, and using accessibility resources during CAASPP testing.

- 100s Number Table (non-embedded mathematics accommodation)—[Appendix G: 100s Number Table](#)
