Dear LEA CAASPP Coordinator:

You are receiving this email because at least one of your students who was in grade six during the last school year was affected by the recently communicated issue with the scoring and reporting of the grade six writing extended responses in the 2018–2019 CAASPP Smarter Balanced for English language arts/literacy. We want to let you know that on Thursday, February 20, 2020, the Student Score Reports (SSRs) affected by the issue were corrected and reposted to both the Test Operations Management System and the student information system or parent or student portal servers. The .dat file has been updated as well.

Attached to this email is an Excel spreadsheet that lists the Statewide Student Identifiers (SSIDs) of all affected students with information such as their original scale score and achievement level, as well as the updated scale score and the achievement level associated with the updated scale score. Also attached is a parent letter template that can be sent to parents/guardians of the students who were impacted by the issue.

Thank you for your continued support of the CAASPP System. Please contact the California Technical Assistance Center by phone at 800-955-2954 or by email at caltac@ets.org with any questions.

Sincerely,

California Technical Assistance Center
Educational Testing Service
