Subject: CAASPP: CAA for Science Test Examiner Tutorial Available

Dear California Educator:

The [2019–20 California Alternate Assessment \(CAA\) Test Examiner Tutorial](#) is now available to support your administration of the CAA for Science. This tutorial provides both the CAA general administration module and the CAA for Science module. In November 2019, the module for the CAAs for English language arts/literacy and mathematics will be available.

The four CAA for Science embedded performance tasks (PTs) can be administered in any order, beginning **September 3, 2019, through the end of the school year**. Both the general administration and the CAA for Science tutorial modules must be completed prior to administering a CAA for Science PT.

Coordinators and test examiners should refer to the *2019–20 Administration Planning Guide* to schedule the four PTs for the CAA for Science. You can access the *2019–20 Administration Planning Guides* that are available on the [California Alternate Assessments](#) web page on the [CAASPP Portal](#) website.

Test examiners with questions about CAA administration should address them to their CAASPP test site coordinator. CAASPP test site coordinators should address questions to their local educational agency (LEA) CAASPP coordinator. LEA CAASPP coordinators can address their questions to the California Technical Assistance Center by phone at 800-955-2954 or by email at caltac@ets.org.

Sincerely,

California Technical Assistance Center
