Subject: CAAs for ELA and Mathematics DFA Version Assignments Now Available

Measuring the Power of Learning.™

Dear California Educator:

Version assignments for the administration for the California Alternate Assessments (CAAs) for English language arts/literacy (ELA) and mathematics are now available on the California Assessment of Student Performance and Progress (CAASPP) [CAAs for ELA and Mathematics Version Assignments for 2019–20 Test Administration](#) web page. Version assignment PDF links are sorted by county. Version assignments in the PDFs are listed by local educational agency (LEA) and then school. A school that does not appear on the list will be assigned version 1 by the test delivery system at the time of administration.

Additional resources for the CAAs, including the CAA Test Examiner Tutorial and the DFAs for the CAA practice tests and training tests, are linked on the CAASPP [California Alternate Assessments](#) web page.

Please also note that the practice and training tests for the CAAs for ELA and mathematics are available through the [Online Practice and Training Tests](#) web page.

Test examiners should direct questions about CAA administration to the CAASPP test site coordinator. CAASPP test site coordinators should direct questions to the LEA CAASPP coordinator. Questions about the CAAs and all other topics regarding the 2019–20 CAASPP administration should be directed to the California Technical Assistance Center (CalTAC) by phone at 800-955-2954 or by email at caltac@ets.org.

Sincerely,

California Technical Assistance Center
