Subject: CAASPP--Changes to Interim Assessment Block Downloadable Data File Columns

Measuring the Power of Learning.™

Dear LEA CAASPP Coordinator:

Recently, changes were made to the location of interim assessment block (IAB) results in the downloadable data file in the Interim Assessment Reporting System. Specifically, the following changes were made:

- Student scale score values previously displayed in column AQ (AssessmentSubtestResultScoreClaim1Value) are now displayed in column AM (AssessmentSubtestResultScoreValue).
- Student performance level values previously displayed in column AR (AssessmentClaim1PerformanceLevelIdentifier) are now displayed in column AP (AssessmentPerformanceLevelIdentifier).

Please note that the values for the minimum and maximum of the error band are still displayed in columns AS and AT, respectively (AssessmentSubtestClaim1MinimumValue and AssessmentSubtestClaim1MaximumValue). It is anticipated that the location of these values will change later this year.

For local educational agencies uploading IAB results to their student information system (SIS), two work-around solutions will accommodate the above changes to file format:

1. Cut the values in columns AM and AP and paste the values back into their original columns (AQ and AR, respectively).
2. Reprogram the SIS to pull data from columns AM and AP.

If you have any questions regarding this e-mail, please contact the CalTAC Digital Library and Interim Assessments help desk by phone at 855-631-1510 or by e-mail at caltac@ets.org.

Sincerely,

California Technical Assistance Center
