Subject: CAASPP--Google Chrome Version 47 Is Now Supported

Measuring the Power of Learning.™

Dear LEA CAASPP Coordinators:

The secure browser used for California Assessment of Student Performance and Progress (CAASPP) online testing now supports version 47 of the Google Chrome browser. This now extends the range of supported Google Chrome browsers from version 41 through version 48. Local educational agencies that had previously experienced issues with **the text-to-speech accommodation are still encouraged to upgrade to Google Chrome version 48** for the most optimal experience.

In addition, the text-to-speech accommodation is now available for the Smarter Balanced practice test using Google Chrome version 47 and above. Previously this accommodation had only been available through the secure browser.

Questions about Google Chrome Browser versions and all other topics regarding CAASPP administration should be directed to CalTAC by phone at 800-955-2954 or by e-mail at caltac@ets.org.

Sincerely,

California Technical Assistance Center
Phone: 800-955-2954
Fax: 800-541-8455
