**Subject:** CAASPP--Google Chrome Version 49 and iOS 9.3 Are Now Supported

*Measuring the Power of Learning.™*

Dear LEA CAASPP Coordinators:

The secure browser used for California Assessment of Student Performance and Progress (CAASPP) online testing now supports **version 49 of the Google Chrome browser**. This now extends the range of supported Google Chrome browsers from version 41 through version 49.

In addition, CAASPP online testing now supports **Apple iOS 9.3**. Support for the Apple iOS now includes 7.0–7.1, 8.0–8.2, 9.2, and 9.3.

In addition, the text-to-speech accommodation is still available for the Smarter Balanced practice tests using Google Chrome version 47 and above. Previously, this accommodation had only been available through the secure browser.

Questions about Google Chrome Browser and iOS versions and all other topics regarding CAASPP administration should be directed to the California Technical Assistance Center by phone at 800-955-2954 or by e-mail at [caltac@ets.org](mailto:caltac@ets.org).

Sincerely,

California Technical Assistance Center
