Subject: CAASPP--Interim Assessment Reporting System Enhancements--Now Available!

Measuring the Power of Learning.™

Dear LEA CAASPP Coordinator:

New features are now available in the Smarter Balanced Interim Assessment Reporting System! The following are the system enhancements educators can expect to see:

- **Key and distractor analysis.** Users can view the percentage of students who selected each option in selected-response items.
- **Writing trait scores.** Users can view English language arts/literacy performance task traits scores for Interim Assessment Blocks (IABs).
- **Access to transfer student results.** Users can now view previous interim assessment results for students who are new to their district.
- **Related instructional resources.** Digital Library Connections Playlists are now available for all IABs. States, districts, and schools also can upload their own instructional resources for IABs.
- **District- and school-level data export.** Administrators can export data for the entire selected school(s) or the entire LEA.
- **Custom aggregate reports.** Administrators can create custom reports for Interim Comprehensive Assessments at the district or school level with a variety of filter or aggregate options.
- **Support for groups of schools and districts.** A regional administrator can view interim assessment results for specific groups of schools or an entire district.

Questions about the Interim Assessment Reporting System and all other topics regarding CAASPP should be directed to the California Technical Assistance Center by phone at 800-955-2954 or by e-mail at caltac@ets.org.

Sincerely,

California Technical Assistance Center
