Subject: CAASPP--Reminder: Update Your CALPADS Data

Measuring the Power of Learning.™

Dear LEA CAASPP Coordinator:

As a reminder, please make sure that you update your California Longitudinal Pupil Achievement Data System (CALPADS) student demographic data early and often for the upcoming 2016–17 California Assessment of Student Performance and Progress (CAASPP) test administration.

Student demographic data in the Test Operations Management System (TOMS) are read-only; you must access CALPADS to manage and edit student demographic data. CALPADS data are uploaded to TOMS on a nightly basis; please allow 24–48 hours for changes to the student data to occur in TOMS. If CALPADS updates are not visible in TOMS after 48 hours, contact the California Technical Assistance Center (CalTAC) to report the discrepancy.

Please note that after any scheduled system downtimes, student demographic data changes from CALPADS and test settings made in TOMS may take up to three days to update across all systems.

Questions about student demographic data changes and the 2016–17 CAASPP administration should be directed to CalTAC by phone at 800-955-2954 or by e-mail at caltac@ets.org.

Sincerely,

California Technical Assistance Center
