Subject: CAASPP--Student Data Files Now Available for Download

Listening. Learning. Leading.®

Dear LEA CAASPP Coordinator:

The student data file for your local educational agency's (LEA's) administration of the California Assessment of Student Performance and Progress (CAASPP) is now available for download in the Reports section, Student Reports subsection, of the [2014–15 version](#) of the Test Operations Management System (TOMS).

Please note the following about your CAASPP student data file:

- The file includes results for all administrations of the following operational tests for students in your LEA:
 - o Smarter Balanced Online Summative Assessments for English Language Arts/Literacy and Mathematics
 - o California Standards Tests for Science
 - o California Modified Assessment for Science
 - o California Alternate Performance Assessment for Scienceo Standards-based Tests in Spanish for Reading/Language Arts
- Scores and data included in the file are considered final. However, if the data change (due, for example, to an updated condition code), the data will be updated for that student. When data are changed for a student, the student's record is updated within the student data file. A new student record is *not* created after a change is made.
- Student data files are regenerated nightly.
- You should download your student data periodically to make sure you have the latest student data.

The description of the layout of the student data file is available for download from the CAASPP Reports and Reporting Web page at <http://www.caaspp.org/administration/reporting/>. The [student data file layout](#) includes field descriptions, acceptable values for fields, data sources, and additional explanations about student demographics and some of the data fields.

Questions about reporting and all other topics regarding the 2014–15 CAASPP administration should be directed to CalTAC: by phone at 800-955-2954 or by e-mail at caltac@ets.org.

Sincerely,

California Technical Assistance Center
