Grade 5, Practice Test
CAA for Science Administration Notes

For questions regarding the CAA for Science or other CAASPP assessments:

• Parents/Guardians should contact their child’s teacher.

• Test examiners and other school personnel should contact their LEA CAASPP coordinator.

• LEA CAASPP coordinators should contact the California Technical Assistance Center (CalTAC) by phone at 800-955-2954 or by email at caltac@ets.org. CalTAC is open from 7 a.m. to 5 p.m., Monday through Friday.

• For more information on all aspects of the CAAs, including test security, item types, and guidelines, refer to the Online Test Administration Manual for CAASPP Testing, which is linked on the CAASPP Manuals and Instructions web page at https://www.caaspp.org/administration/instructions/index.html

Directions for Administration

About the Practice Test Directions for Administration

This California Alternate Assessment (CAA) for Science Directions for Administration (DFA) document contains information needed by test examiners to prepare for and administer one of the practice test performance tasks (PTs). This DFA contains specific information about this PT, including

• student engagement and student response,
• the concept of individualization,
• orienting activities and graphics for the orienting activities,
• the associated script for the online test questions, referred to as test items, and
• a complete list of materials needed for the administration of the performance task and suggestions for individualization, if needed.

Additional Information

• How to Start a Practice Test Session for the CAAs web document at https://www.cde.ca.gov/ta/tg/ca/documents/caaqrgpractice.pdf
• California Alternate Assessments web page at https://www.caaspp.org/administration/about/CAA/
Using the *Directions for Administration*

This *DFA* contains the script for administration of this CAA for Science embedded PT. Keywords, symbols, and instructions for test examiners are as follows:

<table>
<thead>
<tr>
<th>Guide to Administration Scripts</th>
<th>How the Test Examiner Should Proceed</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SAY</strong></td>
<td>The test examiner reads the material aloud to the student.</td>
</tr>
<tr>
<td><strong>POINT TO</strong> the corresponding picture</td>
<td>The test examiner points to the information on the screen.</td>
</tr>
<tr>
<td><strong>READ</strong> each option and <strong>POINT TO</strong> the corresponding picture</td>
<td>The test examiner reads each option on the screen aloud while pointing to the graphics or text on the screen.</td>
</tr>
<tr>
<td><strong>DO</strong></td>
<td>The test examiner performs an action.</td>
</tr>
<tr>
<td><strong>ALT</strong></td>
<td>The test examiner reads the alternative text instead of pointing to the image.</td>
</tr>
<tr>
<td><strong>IND</strong></td>
<td>The test examiner has the option of administering the orienting activity or test item using either the original format or an individualized format. Guidelines for administering in both formats are provided in the <em>DFA</em>.</td>
</tr>
</tbody>
</table>

**Alternative Text for a Student with Visual Impairment** [ALT]

Within the *DFA* is boxed and *italicized* text preceded by the **ALT** symbol that provides the Alternative Text for a Student with Visual Impairment. The alternative text in these boxes should be used to describe images for a student who is not able to fully access the images or videos used in the assessment.

The alternative text is intended to be a supplement to the administration script for students who are visually impaired and should not be used in place of the administration script. Where the administration script prompts a test examiner to “**POINT TO**” an image, the test examiner would instead read the relevant alternative text to the student. The alternative text can be repeated based on a student’s need or request. The alternative text should be read exactly as it is written in the *DFA*, without clarification or rephrasing.

**Optional Individualization** [IND]

Like other standardized assessments, the CAA for Science should be administered to each student in a consistent manner according to the directions provided, with variations only as specified in each student’s individualized education program (IEP). To maximize engagement for all students, the CAA for Science sometimes offers additional options for individualization in specific orienting activities and test items. This *DFA* provides test examiners with guidelines on how to individualize.
Directions for Administration (cont.)

In preparation for administering this PT to a student, review the listed options for individualization and then decide if individualization is appropriate. If so, gather the alternative materials before you start testing with the student. A student should carry out activities to the greatest extent possible, but if the student is unable to do so, the test examiner may manipulate the materials to conduct the activity. A summary of all materials that may be needed for this embedded PT can be found on page 12 in appendix A.

Student Responses

The CAAs are designed for one-on-one administration between a student and a test examiner who is familiar with the student. When able, students should provide responses directly into the testing device. In some cases, the test examiner may select the responses indicated by the student by means that include, but are not limited to, gesture, eye gaze, or an alternative communicative device. In all cases, responses must come from the student and not from the test examiner. Hand-over-hand or other physical prompting by the test examiner is NOT permitted on any CAA.

Videos

Videos are sometimes used to provide demonstrations of scientific phenomena. These videos do not contain audio. Some videos have accompanying text in the DFA that the test examiner must read to the student. Videos may be paused or replayed as many times as needed. A student or test examiner may change the playback speed (i.e., 0.5X, 1X, 1.5X, and 1.75X) on the progress bar as necessary to ensure the student is able to process the content.

Student Engagement and PT Completion

Establishing and maintaining student engagement is important to the successful administration of the CAA for Science. The test examiner may pause testing if the student is no longer engaged, is not actively participating, or is showing signs of behavioral or functional concerns related to the test. Testing may resume at a later time as appropriate for the student.

If a student does not regain productivity and engagement, even after allowing breaks over multiple days, a test examiner may end a student’s test. To end the test early, advance through the remaining test items and then submit the test.

A student should be administered as much content of each PT as possible. Take the time necessary to elicit the student’s best performance on each test item. A student should use the mode(s) of communication used in daily instruction.

Take advantage of options for individualization if offered in this DFA, and remember that test examiners can always use accommodations and resources to best meet a student’s individual needs, as documented in the student’s IEP. Please note that all test items may be individualized based upon the student’s IEP.
Selecting the “Mark as No Response” Option*
Ultimately, the professional judgment of a test examiner who is familiar with the student will ensure each student gets the best possible opportunity to demonstrate what the student knows and can do. For cases where the student is presented with a test item and does not provide a response, a “Mark as No Response” option is available for each test item and is found in the context menu (≡) in the upper right corner of the screen. Test examiners then select the [Mark as No Response] option and proceed to the next test item. Please remember that test examiners should use this option only if they have presented the test item (i.e., read the test item) to the student and the student did not provide a response, despite the test examiner’s best efforts to elicit a response. More information on response options is available in the document Response Options for Alternate Assessments located at https://www.caaspp.org/rsc/pdfs/CAASPP-ELPAC--Response-Options-for-Alternate-Assessments.2021.pdf.

* The “Mark as No Response” option is not available on the CAAs for English language arts/literacy and mathematics.

“Mark as No Response” Option Versus Next

<table>
<thead>
<tr>
<th>Presented Test Item to Student?</th>
<th>Student Response</th>
<th>Test Examiner Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td>Student provides no response.</td>
<td>Select [Mark as No Response] option from context menu.</td>
</tr>
<tr>
<td>No</td>
<td>Student has become unresponsive and test examiner determines that it is best for the student to end the performance task.</td>
<td>Select [NEXT] button to continue through to end of performance task and then select submit button.</td>
</tr>
</tbody>
</table>
Preparation for the Orienting Activity

The orienting activities prepare the student for the actual test items. The first orienting activity introduces concepts covered in the first five test items of the embedded PT. The second orienting activity introduces concepts covered in the last five test items.

As the test examiner, you may substitute objects that are more familiar to the student for these activities.

Orienting activities sometimes make use of graphics or other manipulatives that are external to the test delivery system and sometimes use videos or graphics that are within the test delivery system. Be sure to have graphics and manipulatives ready before starting the test session. Refer to appendix A for a complete listing of all materials that may be needed for this embedded PT.

Orienting Activity 1—Light

The purpose of this activity is for the student to watch a video that shows how light is necessary for a person to be able to see objects.

Orienting Activity 2—Matter

The purpose of this activity is for the student to watch a video that shows a substance changing from a solid state of matter to a liquid state of matter.

Begin the Orienting Activity

Log the student on to the test delivery system now.
Script for Orienting Activity 1—Light

**DO:** Play the video. As the video plays,

**SAY:** The video shows a person walking into a dark room. Very little can be seen. A hand turns on a light switch. A bedroom can now be seen.

**IND** The test examiner may take the student into a dark room and then turn on the lights.

**ALT** We are walking into a dark room.

I am turning on the lights.

Now we can see what is in the room.

— This concludes Orienting Activity 1. —

Begin testing on the next screen.
Scripts for the First Set of Test Items

1

POINT TO the picture and
SAY: The picture shows what you can see when the light is on in the room.

ALT The picture shows a ball on a chair in a room.

READ the item, POINT TO the options, and
SAY: A

ALT The picture shows a ball on a chair in a room.

B

ALT The picture shows a ball on a chair in a dim room.

2

READ the item, POINT TO the options, and
SAY: a flashlight

a cup

3

READ the item, POINT TO the options, and
SAY: A

ALT The picture shows a flashlight, an apple, and an eye. There is an arrow pointing from the flashlight to the apple and an arrow pointing from the apple to the eye.

SAY: B

ALT The picture shows a flashlight, an eye, and an apple. There is an arrow pointing from the flashlight to the eye and an arrow pointing from the eye to the apple.

SAY: C

ALT The picture shows an apple, a flashlight, and an eye. There is an arrow pointing from the apple to the flashlight and an arrow pointing from the flashlight to the eye.
4

READ the item.

**ALT** The picture shows a blank box with an arrow pointing to another blank box and an arrow from that box to an eye.

POINT TO the options, and
SAY: chair
Sun

If the student only drags one graphic (correctly or incorrectly),

SAY: Where should the other picture go?

5

READ the item.

**ALT** The picture shows three empty boxes with arrows pointing to the right in between them.

POINT TO the options, and
SAY: eye
flashlight
flower

If the student only drags one graphic (correctly or incorrectly),

SAY: Where should the other pictures go?

--- This concludes the first half of this embedded PT. ---
Prepare for Orienting Activity 2 before proceeding to the next screen.
Script for Orienting Activity 2—Matter

**DO:** Play the video. As the video plays,

**SAY:** The video shows a person dropping butter into a pot on the stove. The heat causes the butter to melt. The butter changes from a solid to a liquid, but it is still butter.

The test examiner may melt butter in a microwave or on a stove. The test examiner should describe the process using the same text as above.

— This concludes Orienting Activity 2. —

Continue testing on screens 6 through 10, which correspond to on-screen sequence numbers.
Scripts for the Second Set of Test Items

6

READ the item, POINT TO the options, and
SAY: A

The picture shows melted chocolate.

SAY: B

The picture shows a chocolate bar.

7

READ the item, POINT TO the options, and
SAY: A

The picture shows a new candle.

SAY: B

The picture shows a puddle of wax with a wick in the middle.

8

POINT TO the picture and
SAY: This picture shows cheese before and after the cheese melts.
READ the item and POINT TO each option as it is read.

9

POINT TO the picture and
SAY: This picture shows a glass of orange juice before and after freezing. The frozen orange juice weighs 8 ounces.
READ the item and POINT TO each option as it is read.
Matter

POINT TO the picture and
SAY: This picture shows a glass of water that weighs 6 ounces.

Part A
READ the item, POINT TO the options, and
SAY: A

ALT The picture shows water spilled out of a glass.

SAY: B

ALT The picture shows ice in the shape of a glass.

SAY: C

ALT The picture shows a glass of water.

Part B
READ the item and POINT TO each option as it is read.

— You have completed this performance task. —
Appendices

Appendix A: Summary of Materials

This appendix contains a summary of the materials that are necessary for the administration of the orienting activities and certain test items for all students. It may also contain a summary of the materials that may be used to individualize the orienting activities or certain test items. Please note that all test items may be individualized based upon the student’s IEP.
